

Deliverable reference: D6.2	Date: 2014-01-29	Responsible partner: INRIA
		Project co-funded by the European Commission within the Seventh Framework Programme (FP7-ICT-2013-10) ICT-2013.1.2: Software Engineering, Services and Cloud Computing Grant Agreement No.: 611337 www.heads-project.eu
Title: <h2 style="text-align: center;">D6.2: Dissemination, Exploitation and Open-Source Initial Plans</h2>		
Editor(s): Olivier Barais	Approved by: Trine M. Seeberg (Coordinator) Franck Fleurey (Technical Manager)	Classification: Confidential
Abstract / Executive summary: <p>This deliverable provides an overview of the dissemination towards the scientific community and the open-source community, and initial exploitation plans by the HEADS consortium.</p> <p>Dissemination plan: D6.2 presents a preliminary plan for dissemination activities within the upcoming reporting period.</p> <p>Exploitation plan: D6.2 also describes the general exploitation approach in HEADS and features the main exploitable assets, being current (baseline) or prospective results (foreground) of the HEADS research, technological and development work. Addressing the different exploitable assets, the initial exploitation plans of all partners are given <i>i.e.</i>, plans for using the HEADS knowledge later on commercially or in other ways. At this stage of the project (month 4 out of 36), exploitation is therefore still preliminary and will be refined, extended and concretized along the evolution of the various results in the upcoming version of this dissemination and use plan.</p> <p>Open-source plan: D6.2 finally presents initial plans and activities to disseminate HEADS assets towards the open-source community.</p>
