

Deliverable reference: <b>D6.3</b>	Date: <b>25 September 2014</b>	Responsible partner: <b>SINTEF</b>
		Project co-funded by the European Commission within the Seventh Framework Programme (FP7-ICT-2013-10) ICT-2013.1.2: Software Engineering, Services and Cloud Computing Grant Agreement No.: 611337  <a href="http://www.heads-project.eu">www.heads-project.eu</a>
Title:  <h2 style="text-align: center;">D6.3: Dissemination, Exploitation and Open-Source Report and Plans - Period 1</h2>		
Editor(s): <b>Franck FLEUREY</b>		Approved by: <b>Project Coordinator: Trine M. Seeberg</b> Classification: <b>Confidential</b>
Abstract / Executive summary: <p>This deliverable provides an overview of the dissemination towards the scientific community and the open-source community, and initial exploitation plans by the HEADS consortium. This document complements D6.2 which was delivered at M4. The overlap between these two documents has been kept minimal. Only sections which have been revised or updated are included here.</p> <p><b>Dissemination:</b>          This document reports on the dissemination activities of the project during the first period. The dissemination plan for HEADS has been defined in D6.2 and is not repeated in this deliverable. An update of the dissemination plan might be included in D6.4 if necessary.</p> <p><b>Exploitation:</b>          This document presents individual exploitations plans for all partners. These exploitation plans are in line with the initial ones presented in D6.2 but have been refined with respect to the project progress and business opportunities. The HEADS exploitation plan presented in D6.2 has not significantly evolved between M4 and M12 and is thus not repeated in this deliverable. An update of the exploitation plan might be included in D6.4 if necessary.</p> <p><b>Open-source:</b>          This document finally presents initial activities to disseminate HEADS assets towards the open-source community. The overall open-source dissemination strategy and plan has been presented in D6.2.</p>
