

Deliverable reference: D6.5	Date: 30 April 2017	Responsible partner: ATC
		<p>Project co-funded by the European Commission within the Seventh Framework Programme (FP7-ICT-2013-10)) ICT-2013.1.2: Software Engineering, Services and Cloud Computing Grant Agreement No.: 611337</p> <p>www.heads-project.eu</p>
<p>Title:</p> <h2 style="text-align: center;">D6.5: Dissemination, Exploitation and Open-Source Report and Plans - Period 3</h2>		
<p>Editor(s): Garifalia SEBOU (ATC), Eva JAHO (ATC), Martin SKORSKY (SOFTWARE AG)</p>		<p>Approved by: Project Coordinator: Arnor Solberg</p> <p>Classification: Confidential</p>
<p>Abstract / Executive summary:</p> <p>This deliverable provides an overview of the dissemination towards the scientific community and the open-source community, and final exploitation plans by the HEADS consortium.</p> <p>Dissemination: This document reports on the dissemination activities of the project during the third period in Section 6. The subsections list the publications, events, publication material, and the website. Section 7 describes the relevant KPIs for successful dissemination. Section 8 refers to the open-source dissemination and Section 9 lists the collaborations with the other EU projects, programmes, and standardization groups. The dissemination plan for HEADS has been defined in D6.2 and is not repeated in this deliverable. For the dissemination activities in the second period see D6.4.</p> <p>Exploitation: This document presents in Section 3 a market analysis and the HEADS results. Section 4 presents the individual exploitations plans for all partners. These exploitation plans have been refined with respect to the project progress and business opportunities. Most notably we present the commercialisation of ThingML with TellU. Section 5 presents the joint exploitation plans which involve two or more partners. The HEADS exploitation strategy presented in D6.3 has not significantly evolved between M12 and M42 and thus not repeated in this deliverable.</p> <p>Open-source: This document presents activities to disseminate HEADS assets towards the open-source community in Section 8. Many of the HEADS results are available on GitHub. The overall open-source dissemination strategy and plan has been presented in D6.2 and D6.3.</p>
